Cement Distribution

It is nearly four weeks since the cement control order was issued by the State Government. Prior to that some quantity of cement was atleast available in the market even though priced high. It is not fair to expect small consumers who require one or two bags of cement for repair works to submit a blue-print and a certificate from a Government engineer along with his application to the Tahsildar as required by the cement distribution order.

It is a pity to see hundreds of people calling on the cement depots only to be told that they have to bring engineer's certificate even for one bag. It is scandalous that we should be inconvenienced in this way for weeks and I hope the public will bring perssure to bear these responsible.

SKYLAB TO BE LAUNCHED TODAY

America's first space station, "Skylab", is scheduled to be launched unmanned from Cape Kennedy, Florida, at 11 p.m. (IST) today.

By far the largest spacecraft ever built—it is as large as a medium size house-the lab will remain in operation in earth orbit for nearly eight months until Jan. 4, 1974.

The first Skylab crew, Charles Conrad, Dr. Joseph P. Kerwin and Paul J Weitz, will rocket the next day at 10-30 p.m. from Cape Kennedy to link up with the lab 432 km above the earth. Astronaut Conrad, 42, will be the Commander.

After 28 days in Skylab, the crew will return to earth on June 12 at 11.15 p.m. Later, the second and third crew consisting of three astronauts each will inhabit the station, each for 56 days. The third crew will return to earth on Jan. 4, 1974. By that time Skylab's supplies will be exhausted and the station will be abandoned in orbit.

The astronauts will use 58 research instruments aboard Skylab to carry out 270 distinct investigations.

If the Skylab flight schedule proceeds as planned, U. S. astronauts will spend more man-hours in space in 1973 than in all earlier years combined.

Dr. P. Rama Pisharoty, Professor at the Space Application Center, Ahmedabad, is among scientsts from 17 countries who will study earth-observation data provided by Skylab to help increase India's agricultural and natural resources development.

New Varieties In Fruits

Indian Institute of Horticultural Research (IIHR) at Hesaraghatta, about fifteen miles from Bangalore, has gathered almost all varieties of fruits, vegetables, flowers and spices grown in the world.

Started by the Indian Council of Agricultural Research in 1967, the Institute has 24 hectares of land which was part of the National Hortorium.

In its less than five years of existence, the Institute has an enviable collection, both in terms of numbers and variety. Grapes alone now number 1,000 varieties besides about 1,000 hybrid seedlings already raised here. Fairly large collection has also been made in banana, mango, guave and strawberry.

In vegetable crops nearly 12,000 varieties have been acquired from all over the world, which include melon, beans, tomato, chillies, brinjal and root crops. In ornamental crops such as flowers and creepers, a large collection has been made in bougainvillaea, hibiscus, jasmines, roses and orchids.

Some success has been achieved in evolving grapes for wine and raisin making.

Extensive work on disease and insect pest control is also under way. Experiments in insect control with regard to crops like sapota, guava, mango, etc., have proved effective.

There are three experiment stations at Gonikoppal, Chethalli and Appangala, in Coorg district, under the direct control and supervision of the IIHR. The researches on mandorian orange conducted at Chethalli and Gonikoppal stations and on spice crop suited to Malnad conditions at Appangala have yielded valuable results.

SOS To Centre For Food Quota

Bangaloae May 15

Mysore has sent an SOS to the Centre to rush the foodgrains quota assured for May to the State, Chief Minister Devaraj Urs said yesterday.

He said Mysore had been allotted 30,000 tonnes of wheat and 10,000 tonnes of milo for this month. But the allotments were not moving according to schedule. If the Centre did not act immediately to set right the situation, it would become very bad, particularly in the drought-affected areas.

The Mystery Of The Missing Girl

Raises Storm In Party

Bangalore, May 24

The Minister and "the Missing Girl affair" figured prominently in the Legislature Congress Party and in both the Houses of the Legislature yesterday.

The party, convened to discuss the Land Reforms Bill, devoted over 90 minutes to this scandal and Sri H.M. Channabasappa, who presided, is understood to have confirmed that whatever had appeared in a local Kannada daily on Tuesday was substantially correct.

The issue was raised by Sri KencheGowda and Sri K. Puttaswamy demanded the truth behind the allegation. MPCC President K. H. Ranganath is understood to have described the alleged incident as disgraceful and demanded that such scandals could not be ignored.

When Sri Channabasappa said the concerned Minister, who was present could make a statement if he was willing, the Minister chose to remain silent, it is reported.

IN ASSEMBLY

Opposition members made another unsuccessful attempt to raise the issue and charged that the Government was trying to hush up the entire matter.

Raising the issue, Sri Vatal Nagaraj said according to his information, the woman involved was Smt. Sumitra Desai of Bombay and the Minister concerned was Sri R. D. Kittoor, Minister of State for Home.

Sri H.M. Channabasappa repeated the Chief Minister's assurance and said that the Government would get information from the police. It would have to verify all the information and examine the issue.

IN COUNCIL

The episode was raised by Sri G. P. Vadeyaraj who wanted to move an adjournment motion. Opposition leader Ramakrishna Hegde and Sri M. Sathyanarayana Rao urged the Government to make a statement immediately as the reputation of the State and the Government was at stake.

Sri Hegde charged that the Government had not kept up its past assurances given in the case of Jayalalitha issue at Mysore over six months ago and such assurances therefore had become meaningless.

Sri Channabasappa assured that the Government would make a statement soon after fully inquiring into the matter. Nothing would be hushed up, he said.

NEWSPAPER REPORT

According to a newspaper report, the woman Smt. Sumitra Desai, was forcibly taken to the Asha Niketan, a home for the mentally retarded in Bannerghatta, by the police in a taxi. A lady of the Niketan recognised her and put her up in an annexe. The woman left the Ashram on Saturday and her where abouts were not known.

Call For Change In Legal Bodies

Mysore, May 25

In a strong attack on the right reactionaries, Chief Minister Devaraj Urs said here yesterday that it was not the democracy of the masses which was in danger as criticised by the reactionaries but it was the democracy of vested interests and their kind of thinking which was coming to an end.

Inaugurating the two-day seminar on "Right Reaction and its Legal Foundations", he said the Government could not be threatened by theses right reactionaries who were thwarting the progress of the country in an organised effort.

He called upon progressive men in the legal profession to join together to fight these reactionaries and their efforts to obstruct country's progress. He said that he was not afraid of the report that the former Judge of the Supreme Court would start a political organisation after his return to the State. He could not be cow down by such threats, Sri Urs said.

Sri Pranab Mukherji, Union Deputy Minister for Industrial Development, attacking the right reactionaries, said the hue and cry raised by them over the supersession of the Supreme Court judge was not an isolated issue. It was a planned strategy to thwart the progress of the country. The real shape and designs of the right reactionaries which manifested in various forms should be exposed, he said.

MPCC President K. H. Ranganath charged that the Supreme Court was trying to assert itself as a third force in the country. "If any judge comes in the way of giving justice till the last common man, such a judge should be condemned in unequivocal terms", he said.

Sri R. N. Byra Reddy, presenting the main paper, said the legal institution in the country needed a revolutionary change, in its machinery and the people who man it.

Sri T.V. Srinivasa Rao, Chariman, Reception Committee, welcomed the gathering. Sri P.N.Reddy, Chairman, State Advocates Forum for Socialist Action, spoke. Sri K. S. Chandrasekhar, Convener, Socialist Youth Front, proposed a vote of thanks.

READERS' FORUM:

Municipal Hearse

It is tragic that a city like Mysore with its great reputation for culture and good nature cannot boast of a dependable hearse. It is understandable that ambulances available in the city's hospitals are not to be used as hearses. The City Municipal Council is supposed to have a hearse no doubt. But it is thoroughly undependable, Recently it broke down on the road and left every one in the lurch. On the 24th instant when I approached the authorities I was given to understand that the hearse was not available as it was down for some days and that it would take yet some more days to be put on the road. I was then to seek the services of a tavi with all its inconveniences despite the high cost, leave alone the health hazard.

The question arises whether the CMC cannot make more satisfactory arrangements. Firstly, a dependable vehicle must be commissioned as a hearse Secondly, a hearse drawn by bullocks or horses or even a trailer which could be hauled by a towing vehicle which could be hired by the MSRTC should be maintained as a standby What has got to be realized is that the socio-economic changes that our government is dinning into the minds of one and all day in and day out have also had its influence on the class of professionals of old who carried dead to the cremation or burial grounds.

Less Student Unrest In South

SAYS GOVERNOR

Mysore, June 4

Governor Mohanlal Sukhadia yesterday called for maintaining highest academic standards in the country to avoid being a second-rate nation in the world.

Laying the foundation stone of men's hostel building at Manasa Gangotri, he said that today we lived in a highly competitive world. Much of the progress of the nation depended upon scientific research and knowledge. "We cannot be dependent on knowledge acquired at second-hand from other countries. If we want to stand as equals with the rest of the world, it is our universities which should enable us to do so".

Referring to disturbances in the academic life, he said today we saw a spectacle of both teachers and students being more concerned with problems unrelated to the main purpose of the university, with personal rivalries and animosities. If such atmosphere was created, it would bring disaster to all, he warned.

He was happy that generally academic life was much less disturbed in the South than elsewhere in the country. The universities in the South were well run and commanded considerable prestige and influence, the Governor said.

Welcoming the Governor at the function held to lay the foundation stone of the men's hostel in Manasa Gangotri, he said the University started with 593 students in 1916 had now 129 colleges with a total student strength of 73,483. Mysore City was one of the largest educational centres with about 21,000 college going students.

Stressing the need for providing more hostel facilities, Prof. Gowda said that the strength of the post-graduate students was 2,500 and hostel accommodation was available for only 780. Out of 4,000 under-graduate students, only 300 had hostel facilities.

The new hostel would cost Rs. 8 lakhs and the University proposed to spend nearly Rs. 20 lakhs this year for construction of new hostels. One of the primary reasons for students' unrest here was the non-availability of proper accommodation with minimum facilities, the Vice-Chancellor said

TB TO BUILD 500 NEW HOUSES

Minister Announces New Housing Project

Mysore, June 5

The State Government proposed to construet 500 houses to provide housing facilities to all categories of people in Mysore City, Municipal Administration Minister B. Basavalingappa said here this morning.

Inaugurating a programme of the City Improvement Trust Board to plant 50,000 avenue trees in the city at the T. Narasipur Road layout, the Minister said that in the allotment of these houses preference would be given to those who paid 25 per cent of the amount along with application.

The Minister made it clear that the public need nothave any apprehension regarding the quality of construction of these houses. He assured that with due care and prudence these houses would be constructed. The allotees themselves could supervise the construction work. Their suggestion regaading the design of the house would also be taken, Sri Basavalingappa assured. He said thescheme would be entrusted to the City Improvement TrustBoard. It would be implemented with assistance from financial institutions.

He said it was also proposed to acquire more lands in the city. As far as possible all the people here should own a site or a house and they should be free from mental agony of not owning a residential place.

Referring to the steriotyped construction of houses, SriBasavalingappa said he hated the houses of this type. He admitted that the Housing Board was not working welland "we want to break this monotany" in the construction of houses.

The Minister said he would issue a directive to all the Municipalities and Corporations in the State to take up planting of trees to beautify their cities. A town municipality should plant at least 5,000 trees, city municipality 10,000 and a corporation 50,000 trees nnder the scheme, he said.

The Minister said there should be balanced growth in rural and urban areas if there had to be a socialistic society. Anybody coming in the way of this should be eliminated. Government had to think how best to achieve the balanced growth of the society.

Attention had not been given for urban development only. Already 3.25 lakh sites had been distributed in rural areas and Rs. 5 crores had been provided in the budget for construction of cheap houses, he said.

Board Chairman B. N. Kenge Gowda requested the Minister to solve the city's water supply problem. There was no uniform water supply at present, he said.

Board Trustee Syed Abdur Rehman welcomed the Minister. Another trustee F K. Irani proposed a vote of thanks.

Sri Basavalingappa inspected areas, including 80-acre Lalithamahal area, for the new housing scheme.

Engineers Warn Of Direct Action

Mysore, June 8

A common scale of pay for both graduate and non-graduate engineers and more promotional opportunities to diploma engineers would be demanded at the 40th conference of the Mysore Engineering Association to be held at Town Hall tomorrow.

The conference will be inaugurated by Chief Minister Devaraj Urs at 12-30 p. m. Minister of State for Major Irrigation H. N. Nanje Gowda will preside.

Explaining the purpose of the confernce, Sri S. Krishna Murthy, Chairman of the Reception Committee and Sri Kenchiah, Zonal Association Chairman, told newsmen yesterday that promotions given to diploma engineers in the State PWD was only about 4½ per cent while in other States it ranged from 25 to 50 per cent. The diploma engineers were being "exploited" to the maximum in the State and they had to remain without promotions even after 30 years of service, they said.

Sri Krishna Murthy said that if all their democratic methods to persuade the Government to improve the service conditions of the non-graduate engineers failed, they would have to resort to "bold action" as taken up by the engineers in Rajasthan, Kerala and Uttar Pradesh recently.

Choose Leaders With "Soul-Force"

HANUMANTHAIYA'S CALL

Mysore, June 11

Sri K. Hanumanthaiya, MP, yesterday deprecated the growing tendency among men in position of criticisingGandhiji and preaching atheism while respecting Marxism.

Presiding over the 26th Shanti celebrations of Gandhiji under the auspices of the Mahatma Gandhi Seva Sangha at Town Hall, Sri Hanumanthaiya regretted that we were electing such persons to power.

Comparing Gandhiji to Buddha, Mahaveera and other such great men, he said that Gandhiji was born in India to remove atheism and establish Dharma. His teachings had eternal value not merely to India but for the entire world.

But it was unfortunate that after his death, his real followers were spreading away and instead communist tendencies were growing. There were people in power who themselves today criticised Gandhiji and expressed lack of faith in God. If any one spoke about God, they were called'reactionaries', Sri Hanumanthaiya regretted.

Similarly Gandhiji had prohibitted drinking in the Congress. But today there was increasing publicity for drinking and people in position also were addicted to drinks, he said.

He said although the Centre had announced that it would take over the wholesale trade of food. grains the prices had not come down. The Government had not thought whether it could implement this decision well. As long as it had a corruptive administration, this decision could not be implemented successfully to the benefit of common man he said.

Therefore, Sri Hanumanthaiya said, people should choose only such men to power who had moral and spiritual force who alone could solve the country's ills.

Smt. K.K Shah, wife of the TamilNadu Governor, who inaugurated the celebrations. regretted that people in the country today were more after power, wealth and pleasure, while Gandhiji had taught that we should adopt simple living and high thinking. We must make honest efforts to fulfil his dreams, she said.

Sri K. K. Shah, in his address, said that we had to guard ourselvesagainst exploitation of any sort in the name of caste,community, religion or language.

Earlier, Sangha Vice-President Sowcar T. Thimmappa welcomed the gathering. Sri B. G. Radhakrishna read a report. Sangha Secretary Dr. B. G. Das proposed a vote of thanks.

GANDHIJI FAILED TO HELP HARIJANS

Smt. Satyavani Muthu, Tamil Nadu Harijan Welfare Minister, said at Madurai yesterday that Gandhiji had only preached ideals but had not taken any practical step with regard to the welfare of Harijans.

She said Gandhiji was opposed to the idea of reservation of jobs to Harijans.

Smt. Satyavani Muthu said Gandhiji adopted a paradoxical policy of supporting Hinduism on the one hand, while advocating the removal of untouchability on the other. This was not practical since those who believed in Hinduism would not accept this stand as they insisted on the division of society into four categories.

READERS' VIEWS :

MSRTC BUS SERVICE

Months after submitting a mass representation and repeated requests, the residents of Banni Mantap extension and the surrounding area were favoured a couple of months back with the introduction of route 26 which was so circumlocutory in both directions that the prospective passengers preferred to walk. After further representations and weeks of waiting, certain changes were given effect to on June 4 and the Enquiry Office in the CBS even was not aware of it.

Is it not surprising that in a city which has to its credit no less than a dozen dailies not even a press note, leave alone an advertisement, appeared about this? How does the MSRTC expect the public to patronize the service? Even this new route is curiously devised as it passes in gullies rather than in roads. What would be a viable route would be a ring service from the CBS down Sayyaji Rao Road, The Bamboo Bazar, Banni Mantap Road, Chikka Veeranna Road, Irwin Road and Sayyaji Rao Road. This route would serve the Yadavagiri area also as it would be just a matter of crossing the railway lines on foot.

READERS' FORUM :

Dear Sir,

FOODGRAIN PRICES

It is distressing that the incessant cry of the common man for his vital necessities like food, clothing and shelter does not appear to have reached the ears of the powers that be.

For, our rulers seem to be engaged in guarding their seats of power. Time was when these power-seekers in their door-to-door election campaign begged for the common man's vote elevating him to the position of a master. How soon the attitude has changed!

One of the promises of the ruling party at the time of elections was "Garibi Hatao" namely, that it would provide adequate food, clothing and shelter to people through suitable changes in socio-economic policy.

It may be mentioned that the price of rice has gone up from Rs. 1-50 to Rs. 2-60 per kg. Even the Punjab wheat which was being sold at Rs. 1-20 per kilo is now being sold at Rs. 2-60. The prices of other essential commodities have shot up to such an extent that it has become well-nigh impossible for the common man to lead a normal life.

Slogans like "Garibi Hatao" etc. are not the exact formulae by which the prevailing problems of the common man could be solved. The authorities may, therefore, usefully and necessarily engage themselves in some honest efforts for the proper distribution of vital commodities, which are not so scarce as they are made to appear. This, I am sure, will pave the way for considerable fall in prices, which have rocketed beyond imagination.

Panorama Of Wild Life

Wild life is decidedly the most fascinating and colourful gift that nature has bestowed upon our country. It has been estimated that there are more than 500 different species of mammals, about 2000 species of birds and a large number of reptiles, amphibians and fishes inhabiting India's land and waters. The mammals include the elephant associated in India from time immemorial with the splendour of her princely pageantry, the gaur or Indian bison-the largest of existing bovines, the great Indian rhinoceros-the greatest of all the rhinos now inhabiting the world, the gigantic wild sheep of the Himalayas-probably the largest of their race, the Kashmir stag, the swamp dear, the thamin and the spotted deer-one of the most beautiful of all deer, and the nilgai, the four-horned antelope and the elegant black buck.

The beasts of prey include the lion and the tiger-the most magnificent of all the big cats-and such splendid creatures as the clouded leopard, snow leopard and the marbled cat. Other species like our Himalayan foxes, mariens gorgeous flying Suisrels and silky-haired langurs are remarkable for the beauty and value of their fur. The 'musk' obtained from musk deer, the ivory from elephant tusks, the rhinoceros horn, the tiger and leopard skins, are some of the wild life products which are fetching fabulous prices in the national and international markets. The beauty of a variety of brightly and vividly coloured birds, the melodious voice of cuckoo, the capability of maina and parrots to imitate human voice are nature's remarkable innovations associated with the life and culture of our society from the very inception. It is the wild life that puts life in the forest vegetation and its surroundings.

A striking fact emerging from the comparison of the fauna of the past with that of the present, is the wonderful variety of forms which lived in those remote times and the relatively fewer forms of today. Though our records are not very complete yet we know that eleven different species of elephants and mastodons lived in the various epochs in the outer ranges of the Himalayas as compared with the solitary living form we have now. There were six different species of rhinoceros and several representatives of the wild boar, some of gigantic dimensions The beasts of prey were also more numerous than those now living in that region.

NEW LAYOUT NEAR LALITHA MAHAL

Mysore, June 21

A new layout called the "Siddhartha Layout" will be formed beside the Lalitha Mahal Palace to construct 300 houses for lower, low and middle class income people, Sri B. N. Kenge Gowda, Chairman, City Improvement Trust Board, disclosed this morning.

Addressing a press conference, he said Municipal Administration Minister B. Basavalingappa, during his recent visit to the city, had approved this area for the housing project under the new scheme.

According to the scheme, applicants who pay 25 per cent of the cost of the house could own the house to be constructed by the Trust Board. The scheme is expected to cost Rs. 30 lakhs.

The Trust Board also proposed to consturct 150 two floor houses under the same scheme at Saraswathipuram, he said.

SITE ALLOTMENT IN JULY

Sri Kenge Gowda announced that the corner sites at Gokulam III stage layout would be auctioned during the first half of next month. The allotment of sites there would be completed by July-end. The allotment of sites in the other three layouts for which applications had been received—T. Narasipur, Gayathripuram and Banni Mantap Extension—would be finalised by the end of August, he assured.

Explaining the delay in allotment of Gokulam sites, the Chairman said that after the receipt of applications from the public, the Board had received a communication from the Government to auction the corner and commercial sites.

Therefore, it had to intimate all those who had applied for corner sites to withdraw their amount, giving them sufficient time. These formalities had delayed the allotment, he said.

6602 APPLICANTS

Giving details of the sites, Sri Kenge Gowda said that as many as 6,602 applications had been received for 1,253 sites available for allotment in the four layouts.

The number of sites available for allotment, number of corner sites and number of applications received in each layout was as follows: Bannimantap : 198, 44 and 1340, Gokulam : 462, 130 and 4030, T. Narasipur, 294, 144 and 772 and Gayathripuram : 308, 39 and 460, respectively.

The Trust and the Housing Board were also constructing over 200 houses in these areas, he added.

PARADE GROUNDS ACQUIRED

The proposal for the formation of a straight road scheme from Doddakere had been dropped for the present. The straight road from New Statue Square to Deputy Commissioner's office was likely to be completed in about three months, Sri Kenge Gowda said.

The Banni Mantap Parade Grounds had already been purchased by the Trust Board from the ex Maharaja and houses would be constructed there, he said.

Sait Decries Politics In Unions

Mysore, June 26

Speaking at a function at which Dr. Gokak released the first three books in English onKannada writers and their work, Dr. Nayak said both the Sahithya Academey and the National Book Trust had not done much work in popularising Kannada literature.

Except on Basavanna and Purandaradasa, the Book Trust had not brought out as many books in Kannada as in other languages. Similarly the Sahithya Academy had not brought out even a single book on modern writers, he added.

Dr. Gokak said the attitude of the National Book Trust so far had been that instead of translating great literary work they aimed at bringing out books which reflected the social life. The Academy did not 'touch' the living authors as if it would contaminate them.

Pompous Dasara Opposed

Mysore, July 11

Sri R. K. Narayan, reputed writer and member of the Dasara Organising Committee, has opposed pompous and spectacular Dasara celebrations this year.

It seemed incongruous and unseemly to have the so called "spectacular" Dasara in Mysore when half of its population had to stand in queue all through the day for kerosene, sugar and rice. Any extravagant show on the plea of attracting tourists seemed unwaranted in the present condition, he said.

The celebrations should be limited as a purely cultural festival, he said and added that instead of squandering money on the Dasara celebrations, half of the budget could be spent for better maintenance of roads, provision of more lights and general ties.

Stir Against Dasara Panel

Mysore, July 12

Sri Vatal Nagaraj,MLA and Kannada Chaluvaligars leader, yesterday strongly criticised the Government for nominating the same members this year also in the Dasara Organising Committee inspite of several criticisms and charges against them.

He took strong objection for including Sri K. K. Murthy as a member this year also. Sri Vatal charged that Sri Murthy had not been cleared yet from the charges relating to the Jaya Lalitha episode.

The Dasara Organising Committee Chairman had assured in the Legislature to place the accounts of the 1972Dasarafestivities. But so far it had not been done. Similarly,the Chief Minister had not also kept up his assurance of looking into the charges against Sri Murthy and certain police officials, he said.

The Government should place these two reports before the public before this year's Dasara celebrations, he demanded.

As a protest, Sri Vatal said the Kannada Chaluvaligars would picket the meeting of the committee at Mysore. They would also send a memorandum to the Prime Minister and the President in this behalf.

He also criticised that the committee consisted only members of the Congress Party and it looked as though the celebrations was purely a party affair.

Palace To Become Museum

WADIYAR OKAYS

Bangalore, July 21

Sri Jayachamaraja Wadiyar, former Maharaja, has agreed to hand over the Palace to a public trust free of cost for converting it into a museum, disclosed Tourism Minister Azeez Sait yesterday.

The famous art gallery now housed in the nearby Jagan Mohan Palace will also be shifted to the main Palace. A broad-based trust will be formed to administer the Palace. It was the intention of the Government to preserve the Palace as a national show-piece, he said.

Sri Sait complimented the former ruler for his gesture to hand over the Palaee free of cost.

The articles seized include 41 bags of Rice, 621 bags of paddy, 350 bags of jowar, 269 bags of ragi, 1,050 tins of kerosene, 660 kgs of edible oil, 48 bags of cement, 45 bottles of Horlicks, 39 tins of Amul spray and 1,145 torch cells.

Entire Dasara Fete Cancelled

Bangalore, July 21

Tourist Minister Azeez Sait announced yesterday the Government's decision to cancel Dasara Festivities in Mysore this year.

The chief reasons for the cancellation were that the Dasara Exhibition building had been handed over to the Mysore Medical College for the proposed University of Medical Sciences and the Government was facing financial troubles. The Medical Sciences University would come into being in September, he said.

Sri Sait said the sale of the Exhibition Building would yield Rs. 35 lakhs and the stoppage of festivities would result in a savings of Rs. 25 lakhs. These amounts would form the nucleus for the Rs. 3 crore permanent exhibition complex on an 85-acre area in Doddakere Maidan. The project report for the complex was ready.

DISNEY LAND

The complex would have permanent exhibition stalls, mini-theatre, open air theatre stadia and amusement park for children. The area adjacent to the Zoo would be developed into a deer park. All these developments would gradually lead to the creation of "Indian Disney Land", the Minister hoped.

With the development of Mysore as an "Indian Disney Land", Sri Sait hoped that Mysore City was bound to get regular air service.

He did not think the cancellation of Dasara would have any adverse effects on trade and commerce in Mysore City.

CONDUCT PROFITABLE PROGRAMMES

Mysore, July 21

Sri D. Jayadevaraje Urs, City District Congress President, said yesterday that the people of Mysore City were "disappointed" over the decision of the Government to cancel the entire Dasara festivities.

Addressing a press conference, he said the Government had cancelled the festivities only this year in view of the difficult financial position. But there were some programmes which were not resulting in any loss to the Government. At least these programmes should be continued, he urged.

He said, he favoured the setting up of a statutory body for independently organising the Dasara festivities so that there would not be any loss and the importance of the city was not lost. People should see that the festivities were organised without any assistance from the Government.

Develop Mysore City

CHALUVALINGARS' DEMAND

Mysore, July 23

Mysore City was fast deteriorating in its importance. The Government had also not bothered to improve the status of the city, Kannada Chaluvaligar leader Vatal Nagaraj said here yesterday.

Presiding over a one-day seminar on the development of the city organised by the Kannada Chaluvalingars Kendra Samithi, Sri Nagaraj said it was deplorable that Ministers and MPs from Mysore District had not done anything for improving the city.

The Dasara festivites had been cancelled by Tourism Minister Azeez Sait. The term of the elected Municipal Council had beed ended by Municipal Administration Minister B. Basavalingappa. Thus they had further reduced the importance of the city, he said.

Sri Vatal asked the people to ignore the speeches of Sri Basavalingappa. If Sri Basavalingappa was really interested in the upliftment of the Harijans, let him keep his property worth lakhs of rupees at the disposal of the poor Harijans, he challenged.

Sri Vatal warned the Government that if it failed to draw up a plan for the all round development of Mysore City, the Chaluvalingars would boycott all functions of the Ministers.

Sri G. Satyanarayana urged the Government to develop the city as a tourist centre. He wanted the Government to reorganise the State Tourism Devclodment Corporation and the Tourist Department so that they could cater well to the tourists.

Sri Thayur Vittala Murthy regretted that the condition of parks was not satisfactory. Prof. V. K. Doreswamy spoke on "Mysore City from the student's point of view". Messrs Chandrasekharaiah, R. S. Murali, and N. Nagaraja spoke. Sri M.N. Gopalakrishna welcomed and Mahalingu propoeed a vote of thanks.

Corporation Status For City Assured

Mysore, July 24

Municipal Administration Minister B. Basavalingappa assured yesterday that the Mysore City Municipality would be upgraded into a corporation.

Inaugurating a seminar on Mysore City development organised by the City District Congress Committee, the Minister said he had felt now that popular opinion in the City was in favour of corporation.

Certain preliminaries like preparing a corporation bill and its approval by the Legislature had to be gone through for upgrading the city into a corporation, he said.

The Minister defended the take over of 115 municipalities. People were disgusted the way the administration was being carried on by their elected representatives and they were even urging for postponement of election for somemore years. Apart from this reason, 65 of the 114 municipalities taken over were in the drought-affected areas, he said.

Sri Basavalingappa felt that the importance of Mysore City had not fallen. Explaining the proposed schemes, he said plans had been approved for the construction of Rs. 5-crore business complex in the city.

Bank Likely To Collect Civic Tax

Mysore, Aug. 6

Municipal Administration Minister Sri B. Basavalingappa, yesterday felt that agencies for collecting municipal dues should be made independent of the local bodies to effectively condition and gear up the drive to collect municipal dues.

Inaugurating the extension counter of the Santhepet branch of Vijaya Bank at the City Improvement Trust Board premises here, the minister said this job could be entrusted to Banks which were capable of collecting the dues thus benefiting both the banking institution and the civic body.

Sri Basavalingappa said he was seriously contemplating this idea since several municipalities lagged behind in collecting dues. This was not because people were reluctant to pay, but that the officers and the representatives of people were reluctant to collect it. This was because they were assured of their salary and security and as such they took their responsibilities lightly, the minister added.

By involving the banking institutions in the activities of the municipalities, the banks could also be made a partner in the attempt of ushering in social justice. Here he felt the task would be easy since the banks had also realised their social obligations.

City Improvement Trust Board Chairman Sri B.N. Kenge Gowda presided.

Earlier Sri Sundararam Setty, Chairman, Vijaya Bank welcomed. Bank Manager Sripathi Rao proposed a vote of thanks.

READERS' FORUM : NEW LAYOUTS

It was heartening to read in a local paper that a reader had drawn pointed attention to the latest aberration of one of the local authorities which had decided to cut off water supply to houses whose owners had not paid municipal taxes even thoughthey had paidwater tax. This and similar exploits of the authorities in power in India today are only possible because of thelack of right public opinion to stand up to and raise a strong voice of protests.

Of particular interest in this matter is the attitude of the City Municipal administration which pleads inability to arrange for municipal service in localities like Banni Mantap which are developed by the City Improvement Trust Board but are not handed over to the Munipality for reason best known to themselves. This fact has not deterred the CMC to stretch its long arms and collect the taxes even before the CITB can hand over the house to the allotee after obtaining a certificate that the house is ready for occuption even though the CITB does not interest itself to lay either water or electricity connections.

It has to be noted that the CITB when selling sites and houses constructed by it have recovered the entire development charges from the allottees. There is no reason why these expenses should not actually be incurred by the CITB. If the CITB fails to do so why the CMC cannot press the matter by incurring the charges themselves and recovering it from the CITB is not explained. A mass representation from the residents of the Bannimantap area submitted over a year ago has evoked no worth while response, not even an acknowledgement from the CITB is forthcoming.

It is high time that the public asserted their rights in this behalf.

PLIGHT OF THE BEEDI WORKERS

It is really appreciable to note in the newspapers of 8th instant that the minimum rate of wages for beedi workers has been agreed to be enhanced from Rs. 2-80 to Rs 4 30 per 1000 beedies with effect from 15-8 73 in the tripartite meeting of manufacturers, labour leaders and Labour Minister held at Bangalore on 8 8 73.

As per the gazette notification the minimum rate of wages should have taken effect from 21-7-73. But all the manufacturers excepting a very few failed to implement the enhancement of minimum rate of wages from the date of notification resulting in unnecessary mental agony to the beedi workers in these days of skyrockettiing prices.

Considering the living index of the day, all the manufacturers should have implemented the fair enhancement of the minimum rate of wages. The delay in implementation speaks about the non understanding of days' situation and labour trouble. However, the manufacturers agreed to effect the enhancement from 15-8-73. How about the loss sustained by the beedi workers from 21—7—73 to 14 8-73?

The very few manufacturers who without least hesitation and withbroad-mindedness honoured the gazette notification dated 6th July 73 and enhanced the miuimum rate of wages with effect from 21-7-73 really deserve to be congratulated.

Mysore, Aug. 16

Poet Laureate K. V. uttappa yesterday called upon writers to make the younger generation aware of the hardships and sacrifices behind the Independence movement.

Inaugurating the three-day Kannada writers' conference under the auspices of the Institute of Kannada Studies at Manasa Gangotri, he regretted that the present youth lacked much knowledge about the sacrifices and the hard struggle to secure freedom.

Here he cited the example of Soviet Union, where, he said, vast literature had been published on the 1917 freedom struggle and how the youngmen were made aware of the movement.

There was no need to be disheartened over the growth of Kannada literature. There were great literary men like D. V. Gundappa, Masthi, Bendre and others, who could be compared to writers in any other language, he added.

Prof. S. V. Ranganna, who presided, said writers had a great role to play. There was no need to be afraid about the richness or the future of Kannada. It was strong enough to stand on its own legs, he said.

Sri D. V. Urs, acting Vice-Chancellor, released the 10 new publications of the Institute and praised its work.

Earlier, Institute Director H. M. Nayak welcomed the gathering.

PM's Warning To Hoarders

Prime Minister Indira Gandhi gave a stern warning to anti-social elements exploiting the present economic difficulties and said that they would be dealt with severest possible punishment.

She exhorted the people to face the current situation with courage and fidence.

Some of the Opposition "parties staged a mute protest" when the Prime Minister drove to the Red Fort. A few thousand demonstrators stood silently waving placards and banners.

Smt. Gandhi buried a time capsule at the historic Red Fort containing a record of events including a 20,000-word history of India from Aug. 15, 1947 to August 15, 1972, for posterity.

Later, she inspected 200-strong guard of honour consisting of 50 men from the Army, Navy and Air Force and the police, which was followed by unfurling of the flag and the colourful marchpast.

Teachers To Launch Time-Bound Agitation

Mysore, Aug. 20

College teachers all over the State are reported to have decided to launch an intensive "time-bound" agitation from September 5 in their bid to seek an "immediate fulfilment" of promises made by the Government during the past several months for the redressal of their long pending grievances, according to a press note issued here by the Mysore University Private College Teachers' Association. It is stated that a decision to this effect was taken and agitational steps chalked out at a meeting of the office-bearers of college teachers' associations from all the three university areas held in Bangalore last week. This decision was ratified at a meeting of the working committee of the M.U.P.C.T.A. held yesterday. Sri M. Sathyanarayana Rao, MLC, presided.

By Another resolution the association expressed its "strong resentment" over the closed-door manner the University of Mysore conducted the seminar last month on the Mysore State Universities Bill without providing for participation in an effective way to the teaching community itself.

The Association also strongly protested against the recent decision of the Mysore University Academic Council to effect a two percent cut in the Examiners' remuneration in order to swell the student welfare fund. Members of the teaching community would not lag behind in contributing to the student welfare fund, but they resented the way efforts were being made to superimpose decisions on them without consulting the teachers or without appealing to their good sense, the resolution said.

Palace Denies Antiques Sales

Mysore, Aug. 28

The Palace authorities yesterday flatly denied that the articles sold to an Australian, which was prevented by Chief Minister Devaraj Urs from being removed to Cochin harbour and on to Australia, were antiques. They said that what had been were useless articles.

Addressing a press conference they said the former Maharaja was very much interested in preserving the antiques which was substantiated by the very fact that he had agreed to convert the palace into a trust.

The authorities listed out the articles sold which includes 13horse carriages and one camel carriage, all in dilapilated condition, four howdahs made of wood and usually sent to the Ursu community marriages as Royal honours, lighting equipment and furniture numbering about 150.

When they were asked why an Australian was interested in buying these articles which, according to them, were useless, they said that Australians were crazy about such things since such things were generally not found in their country. When a newsman asked them what was the price these articles had fetched, they simply said it was a business deal.

Sri M. L. Raje Urs and N. Nagarajappa addressed the press conference.

Meanwhile, it is learnt that Messrs Jayadevaraje Urs; MLC, K. B. Shiviah and D. Suryanarayana, MLAs,have sent telegrams to Prime Minister, Union Home Minister and Chief Minister requesting them to prevent these articles being removed to Australia

It is also learnt that the Government has requested the Palace authorities not to remove these articles until further instructions from the Government.

Nanjangud Sugar Plant Work By Next June

Mysore, Sept. 4

Work on the proposed Srikanteswara Co-operative Sugar Factory to be set up near Nanjangud at a cost of Rs. 4.5 crores with a crushing capacity of 1,500 tons of sugar cane per day is expected to begin by June next year. The factory which has jurisdiction over four taluks in Mysore district will command about 29,000 acres of land on thirty per cent basis of total cultivable land and will provide direct and indirect employment to about 5,500 people.

Addressing a news conference the promoters of the sugar factory said that share amount to the tune of Rs. 30,000 had been collected yesterday alone when they started the share collection drive at Nanjangud. They hope to collect Rs. 5 lakhs before the month end after which the co-operative factory will be registered. The total amount to be collected by the co-operative sugar factory is Rs. 40 lakhs which they expect to collect by the end of this year.

A novelty in this sugar factory in the co-operative sector is that it hopes to involve all the primary co-operative societies in its jurisdiction (which covers H.D.Kote, Mysore, Nanjangud and Gundlupet taluks) numbering about 200 in this venture and create a federation of co-operative societies which would mean involving about 10 lakh people, who are directly connected with the primary co-operative societies, in the project. The promoters of the sugar factory have to procure shares to the tune of Rs. 20,000 from each of the 210 societies in these four taluks.

They also intend requesting urban co-operative banks to participate in this project. Apart from this there is provision for individual members to take out shares in the project.

The promoters also hope to start a paper mill and a distillery in the co-operative sector itself to find use for by-products such as molasses and bagasses. They also hope to start fibre manufacturing unit and other allied industries in due course. "This is going to be a mother of a multipurpose project", they said.

The office of the co-operative sugar factory is situated in the Taluk Board Office at Nanjangud.

Sri D.M.Siddiah, Chief promoter of the sugar factory, Sri D. Jayadevaraje Urs, MLC, Convenor and Sri T.V.SrinivasaRao, Executive Committee Member addressed the press conference.

Agitations Planned

Mysore, Sept. 11

A number of organisations have threatened demonstrations and agitations over the increasing price of rice in the city.

The price of rice has reached a new high in the open market with prices ruling at Rs. 3 per kg. The price has been raising almost every day in an unprecedented manner creating a sense of despair in the minds of the common man.

The ruling Congress members expect that with the arrival of rice stocks of Mandya, the prices may come down. But authorities fail to inform when the stocks are expected.

The newly-formed Students' Action Committee has warned the authorities that if the price of rice was not brought down, it would stage demonstrations fromThursday. It has decided to meet the Deputy Commissioner today and present a memorandum.

The Mysore District Council of the Communist Party of India has strongly condemned the "oppressive action" of prohibiting processions and public meetings. It was an anti-people action of the authority, the party described.

When prices of food stuffs were shooting sky-high, the District Magistrate instead of invoking the Defence of IndiaRules against black-marketeers and profiteers had taken action against the common man, it charged.

The Mysore unit of the All-India Students Federation has strongly condemned the imposition of the ban order "curtailing the fundamental rights of the citizens to express and demonstrate against the steep rise in prices"

Readers' Forum :

Football Stadium At Mysore

It is gratifying to note that our State's capital is, at last, getting a stadium of international standard. At the same time it distresses all football lovers that Mysore city which has given great footballers like Mustaffa, Vardaraj, Somanna, Karim Shariff, Nanjundiah does not have a play ground worth its name.

It is hoped our sports-loving Chief Minister will also initiate steps for the construction of a football stadium in Mysore city. It is learnt that in view of the proposed Dasara Exhibition Building at Doddakere Maidan the Mysore District Football Association will be rendered groundless.

It is suggested that an alternative ground may be provided for the MDFA preferably at Jeevanarayana Katte or inside the Government House compound.

CM Warns Hoarders

DEFENDS INTER-DISTRICT BAN

Bangalore, Sept. 20

Chief Minister Devaraj Urs yesterday sternly warned the hoarders and profiteers that the Government would deal with them with a firm hand if they continued to exploit the food situation.

Replying to the debate in the Assembly on the adjournment motion on the food riots, he said that he had information that the Akhila Bharatiya Vidyarthi Parishat, a student organisation, was instigating the agitation.

Sri Urs rejected the demand for removal of the ban on inter-district movement of foodgrains. There was no alternative to sharing the shortages for the next two months, he said and promised the people that despite the acute shortage of rice, the Government would not allow the unscrupulous merchants to hold them to ransom. He hoped that the merchants at least now should realise their obligation to society and sell rice at Rs. 2 per kg.

The Chief Minister praised the police for their extremely good job in controlling the riots and said "we have to be proud of our police". He was also proud of some students of Mysore who had helped the Government in identifying and booking several hoarders TheGovernment had booked as many as 6,100 cases against merchants so far, he said.

The Opposition making a strong indictment of the Government for its "glaring failure" to prevent the wide-spread food riots and the "virtual breakdown" of law and order, demanded the resignation of the Urs Ministry and the imposition of President's rule.

The adjournment motion was rejected by the House. Just before the motion was put to vote the entire Opposition walked out.

Govt. Blamed For Food Riots

Mysore, Sept. 20

A memorandum forwarded by some prominent persons of the city to the Prime Minister has blamed the State Government and its policies for the present food position and the food riots in the State.

The ban on inter-district movement had created artificial scarcity and also rise in the prices. The administrative machinery was running with the trend of the dealers in collusion and connivance. Permits had been issued indiscriminately and there was favouritism also, it charged.

The Deputy Commissioner had failed to take cognisance of the warnings made by many political parties about the food situation. The warnings had been brushed aside, the memorandum said.

It also charged that there were police excesses and urged the Prime Minister to institute an impartial judicial enquiry and probe by the CBI into all these matters.

The memorandum has been signed by a dozen citizens including Messrs V. H. Gowda, H. Gangadharan, B. Puttaswamy, M. Venkatalingiah, A. S. Guruswamy, M. N. Thimmiah, H. L. Srikanta Murthy and T. N. Nagaraj.

Readers' Forum :

BABY FOOD SCARCITY

My daughter's baby, 8 months old, was being fed from Amul or Amulspray which ever was available. For the last 5 days we are approaching the shops and we have received the negative reply, stating that the commodity is not in stock, and I understand from enquiry that the stock supplied by local agents is exhausted and further supply is not made by the dealers, inspite of the quota available.

It is needless to say that the babies accustomed to such diet will suffer badly by way of Diarrehea by changing the diet. As an instance my grandson aged 8 months old is suffering from acute diarehea. If their requirements for this food is not readily available the consequences may be fatal.

Hence the appeal to the concerned authorities, kindly to afford necessary relief to the suffering public. Such instances may be several but they are quietly suffering.

FACILITIES FOR DEVOTEES

Sir,

Devotees in large number go to Chamundeswari Hills to worship Goddess Chamundeswari. Their number will be more during Navaratri. But Navaratri is a rainy season. Hence, a shelter is necessary for passengers to wait for bus on the Hills.

In the summer season, there will be great necessity for drinking water for pilgrims coming to the temple. A tap near the bus shelter or in the bus stand will be a great help to them.

Therefore, I request the concerned authorities to fulfil the requirements of the devotees.

MPCC Member Flays Urs Ministry

Mysore, Sept. 24

Sri G. V. Anjanappa, MPCC member, has mounted a scathing attack on the 18-month-old Devaraj Urs Ministry and indicated the coming into being of a new State party with all "Socialist-minded" people joining together.

Addressing a press conference yesterday, he said socialism had remained only in slogans and on paper, and the action of the Government were bereft of progressive thinking and practical wisdom.

The people of the State during the past 18 months of "misrule of Urs Ministry" had got disillusioned and disgusted and they had started cursing themselves for voting the Congress Party to power, he said.

Sri Anjanappa described the land reforms and sites for the siteless scheme as half-hearted measures and did not constitute a socialist programme of action.

SUMITRA DESAI EPISODE

Citing the "glaring examples of the Government's maladministration and indifference to public morals", the MPCC member said the Sumitra Desai episode had remained a mystery even after four months. The affairs of Agro-Industries Corporation brought no credit to the State Government.

He charged that Finance Minister Ghorpade virtually owned thousands of acres in Sandur and was in arrears to the State Electricity Board to the tune of lakhs of rupees.

Criticising the speeches of the Municipal Administration Minister, Sri Arjanappa said Sri Basavalingappa's attacks on the Father of the Nation and on the Hindu Gods were blasphemous. It was high time the people belonging to all communities observed a "social boycott" of such "self-styled Avatarapurushas", he said.

Indicating the formation of a new party, he said he would not hesitate to come out of the Congress to form a new party if it was found that by remaining in the party it would not be possible to cleanse the administration. He had been contacting his Socialist friends and a final decision would be taken soon.

Sri Anjanappa also took strong exception to what he termed as "malicious propaganda and vilification campaign" being made by certain MPs against MPCC President Ranganath.

The city buses were off the roads following stray incidents of stone throwing. The city was otherwise peaceful.

BOARD FOR ZOO URGED

Mysore, Sept. 27

Sri B. C. Lingiah, former Municipal President, has suggested to the Government to set up an independent board for the development of the Zoo Gardens in the city.

Speaking to newsmen on Tuesday, he regretted that the zoo had been neglected by the Government and no improvement had been made there although it was one of the oldest zoological gardens in the country. Its revenue had gone up from Rs 50,000 in 1960 to Rs. 4.73 lakhs in 1972-73.

Since 1948, when the zoo was taken over by the Government, only 15 acres had been added to the zoo gardens. Recently another 40 acres had been acquired but no improvement had taken place there Sri Lingiah said.

Therefore, he urged the Government to spend at least 40 50 lakhs and make the zoo the best in Asia.

Sharavathy Power For City

Mysore, Oct. 1

The Rs. 168-lakh 220 kv. Sharavathi receiving station was inaugurated by Public Works Minister H. M. Channabasappa on Saturday at Hootagahalli, five miles from the city.

The station caters to the power supply needs of Mysore, Mandya, Hassan and Coorg districts. Provision has also been made for connecting the inter-State Mysore-Kerala power line which is expected to be taken up for construction soon.

Sri Channabasappa said the Planning Commission had given clearance for seven power projects costing Rs. 350 crores suggested by the State Government. The schemes included Kalinadi I and II stages, Sharavathi III stage and tail race, Varahi and Bedthi. These schemes would be undertaken and completed during the State's Fifth Plan.

The only condition the Planning Commission had laid down was that the State should supply 40 per cent of power in 1,000 mv. produced in four schemes to the neighbouring States.

With the completion of these projects, the power production in the State would double helping the development of the State and the country. The engineers in the State, therefore, had a responsible role to play, he said.

Sri K. Puttaswamy, MLA, who presided, expressed the hope that with the commissioning of the new power station the power supply to the city would improve. He criticised too many legislations, particularly on agriculture, in the guise of socialism.

Chief Engineer S. Bistapa welcomed. Divisional Engineer A.N. Visweswariah read messages. Chief Engineer Mukunda Rao in a report said that the power made available by the new station would act as a catalyst for the growth of industries and also for extensive use of power for agriculture in the region.

It will also enable the present low voltage conditions in the city to be improved and ensure more reliable supply, he said.

Change In Police Uniform

Mysore, Oct. 1

The State Government has approved the proposal of the Inspector-General of Police for change in the uniform of the State police force in order to enable the police force to keep pace with the spirit of the times and create a favourable public image.

The change to be made are: slouch hats instead of turbans for constables and head constables, blue turban with 'Jari' instead of red and blue striped turban for ceremonial occassions, open collar shirt instead of kurtha, pants instead of shorts and black leather belt instead of snake buckle belt, for civil police and armed police.

The traffic police will have the same uniform as the civil police, except they will wear white slouch hats. The present cotton blue sarees and blouses will be replaced by terrycot khaki sarees and blouses for women police.

The revision of uniform will result in an additional recurring expenditure of Rs. 8.40 lakhs per annum and non-recurring expenditure of Rs. 3.77 lakhs.

* T. Anantharao (President), T. C Sathyanarayana (Vice-President) D. M. Abumohamad, B R. Swamy, B.R. Gopala Krishna, G. S. Thimmiah, A. Ramanna and S. Channappiah have been elected directors of the Urban Industrial Co-operative Society.

FEATURE :

BETTER COFFEE

Coffee is among the most popular non-alcoholic beverages of the world. India produces about one lakh tonnes of coffee and exports 30,000 to 35,000 tonnes every year earning foreign exchange of nearly Rs. 25 crores.

Adulteration in food is common and so in coffee. Common adultrants of coffee are roasted tamarind and date seeds. TheCentral Food Technological Research Institute, Mysore has devised simple tests for detection of coffee adulterants.

A special variety called Monsooned Coffee—that is bleached coffee with a little moisture-is a special item of export mainly to Scandinavian countries and we export about 2000 to 3000 tonnes every year. The Mysore Institute has developed a method for artificial monsooning.

Instant coffee is a welcome discovery. The Institute has prepared a project report for the manufacture of soluble coffee and has distributed it to several parties for commercial use. Further flavour requirements and aroma retention in soluble coffee by improved techniques are being worked out. Methods for the preparation of ready-mix-coffee beverage consisting of sugar, milk and coffee have been standardised.

Coffee-cardamom has also been developed by the Institute. It is a spiced product with export possibilities in West Asian countries. Processes for decaffeination of Green Coffee have also been developed.

Storage of green coffee under proper conditions for retention of appearance and colour is very essential, particularly in the case of plantation coffee, in the humid regions of the west coast. The Institute has developed balooning techinique to provide protection against insect infestation, rodents and moisture. Moisture absorption by coffee beans can be checked by baloon storage. The method consists of covering the coffee stack completely on all sides with polyethylene film and sealing all the open ends. This is more economical as compared to the former method of transporting coffee from the west coast to godowns in the interior areas. Fumigation techniques like DUROFUME process for prophylactic control have also been developed.

For enhancing the shelf life of packed coffee, coffee powder is packed in flexible films like High Density Polyethylene laminates developed by the Institute. Methods for gas packing and vacuum packing of powder have also been evolved.

Disease Resistant

The International Rice Research Institute has developed a new high-yielding "miracle rice" that resists common insects, pests and diseases and withstands dry period for long.

ANAEMIA NEEDS SPECIAL ATTENTION

All body cells are undergoing degeneration and buildingup uninterrupted. So also the cells in blood. The life span of red blood cells is about 120 days which means that every four months,new red cells are built up and the earlier ones degenerate. Building up of red cells and their subsequent maintenance require some nutrients, deficiency of which causes anaemia. A sizeable proportion of our population suffers from varying degrees of anaemia. Apart from nutritional deficiency, malaria and hookworm infestation also can lead to anaemia. Poverty and consequent inability to afford nutritious food are the main causes for anaemia in our country. Some people are ignorant in their choice of good foods and anaemia might result from this as well. Excessive bleeding duringaccidents may cause anaemia. Closely spaced pregnancies and prolonged brest feeding may also result in anaemia.

Every 100 millilitres of blood normally contain 14-15 grams of haemoglobin. Haemoglobin present in the red blood cells supplies oxygen to the body. Adult women with less than 12 g. of haemoglobin are considered anaemic. Women especially when pregnant, are often likely to become anaemic.

Feeling of exhaustion, headache, sleeplessness, loss of appetite,changes in nails and general weakness are the symptoms of anaemia. While they may not pose danger to life, the working efficiency does suffer.

Nutritional requirements of pregnant women are rather high. If there is not enough blood, oxygen supply for the body cells will not be sufficient, which may cause a premature delivery. If the delivery is earlier than expected, the infant's life is in danger. Moreover, the mother's life may also be at risk as a result of the excessive strain on her.

If the mother is anaemic, she cannot provide enough blood to the baby in her womb Infants live on breast milk alone for the first six months. But iron content of milk is rather low. with no iron stores in the body and only little of it in milk, infants are more exposed to getting anaemia.

What are the nutrients which can prevent anaemia? Proteins, iron, vitamins-B and vitamin-C are essential for the formation of blood. Deficiency of any of these can lead to anaemia.

Milk, pulses, liver and eggs are rich in proteins, and the baby can have good quality proteins through a mixture of cereals and pulses. Next to proteins iron isimportant. This mineral nutrient is available in leafy vegetables and liver.

Body needs some vitamins to absorb iron from food. To cite an example: unless vitamin C is present. iron cannot be absorbed properly. Generally all fruits contain vitamin C. It is also found in leafy vegetables.

B vitamins are needed to maintain good blood. Whole grains, pulsees liver and milk give us these vitamins.

About half the number of pregnant women in our country are anaemic. One out of every four maternal deaths is due to anaemia. To avoid anaemia, the daily diet should contain milk, whole grains, leafy vegetables and liver Vegetarians must eat a lot of leafy vegetables.

READERS' FORUM:

CHANGE FOOD STAFF

Sir,

The new ration cards were distributed about six months ago after repeated announcements about their distribution to the public. It was later announced that all the cards will be assigned to only co-operative societies, but the announcement was cancelled after some time. Now it was announced that the cards will be assigned to the societies or fair price shops nearest to the card-holders. But it is surprising to see that a person in Gandhi Nagar is attached to Paduvarahalli, and a resident of Mysore South is assigned to a shop in N. R. Mohalla. Such cardholders are wondering how they are assigned to so far off societies or shops.

My humble appeal to MLAs of Mysore and the Hon'ble Ministers is to take interest and solve this hardship caused to the public by the Food Department. A complete change in the departmental staff and posting of experienced officials would help the public a lot.

No Probe Into Police Excesses

Bangalore, Oct. 11

The Opposition demand in the Legislative Council for an enquiry into police excesses during the recent food agitation in the State was rejected by Health Minister S. Siddaveerappa yesterday.

There was some organised effort in creating disturbances to make capital out of the sufferings of the people, he opined.

Defending the police action in Mysore City, he said that stones and acid bottles were thrown on the Police from the Medical College Hostel. Only later police resorted to lathi-charge.

Sri N. Rachiah said that vested interests, merchants, forward communities and affluent section of the society had instigated the agitations. College managements had set up students to conduct agitation in Mysore City and other neighbouring places on Sept. 13 14, he charged.

Kannada Classics In Hindi

Mysore, Oct. 15

A Rs. 20-lakh master plan to publish Kannada classics in Hindi by the Hindi Department of the Mysore University was inaugurated on Saturday by Dr. D. P. Pattanayak, Director, Central Institute of Indian Languages.

Dr. Pattanayak said that the argument over the national language, whether it was Hindi or any other language, was a sterile argument. All the Indian languages were a part of our national languages, he said.

Dr. H.M. Nayak, Director, Institute of Kannada Studies, who unveiled the portraits of Kannada litterateurs, said Hindi was only a link language and not the only national language. Other Indian languages too had the same status as Hindi as national languages.

Dr. R.R. Diwakar, who presided, regretted that there was an element of politics in tackling all issues in the country. The Mysore-Maharashtra border solution and the language problem were no exception to this.

Hindi was only a link language. This should be accepted. But this did not mean that other languages were not national languages, he said.

STRESS ON NEED FOR ORIGINAL RESEARCH

Mysore, Oct. 18

The absence of training in research methodology is suicidal to our national development observed Vice-Chancellor D. Javare Gowda yesterday.

Inaugurating a short-term course in research methodology in human geography at the Institute of Development Studies, Manasa Gangotri, he said there was a tendency among our researchers to prepare descriptive documents based on secondary sources. What was needed was original research to suit the needs of our country.

The planners and scientists should also keep in mind the need for such original research based on the needs of our country instead of blind imitation of the developed countries. It was only on account of these pitfalls that our plans had not shown the desired effect, he said.

Prof. Gowda regretted that our universities and colleges had not been quite alive to the research needs of the society. A student who took up Ph. d. level research had no idea of how to proceed. He often wasted months and years, and finally discontinued research in utter despair, he said.

Earlier, Sri V.K. Natraj welcomed the participants. Dr. R. P. Misra, Institute Director, and Dr. D. C. Jayashankar outlined the objectives of the course, Sri M. Salar Masood proposed a vote of thanks. The course is being attended by 30 participants.

FEATURE :

MILK—A PERFECT FOOD

Who doesn't know that milk is a perfect food? The first food that an infant takes after birth is milk. No matter what the age is, milk and its products are relished by all.

We consume milk in a variety of ways—as whole milk and curd and as milk products like cheese, butter and ghee. These all make for a good nutritious diet.

There is some variation in the nutritive values of milk from different animals. Cow's milk contains more than twice the quantity of protein contained in human milk, but it is less sweat than the latter. That is why cow's milk is diluted twice and sugar added to it when it is given to the infant in place of breast-milk. Buffalo's milk contains more fat than cow's milk. Goat's milk is more or less like cow's milk in its contents.

One can understand how nutritious milk is from the fact that a new born baby is able to grow quite well just by consuming milk only. The most significant aspect of milk is that it contains all the nutrients and in proper proportions too.

About 87 per cent of milk is just water. Although the protein content of milk is only 3 or 4 per cent, the milk protein is of food quality. The amino acid-the building blocks with which proteins are made up in milk protein are of the proper type and proportions. Milk proteins contains adequate quantity of those amino acids in which cereal protein are deficient. Milk is a vegetarian diet, therefore, improves the overall nutritional quality of the diet.

Cow's milk contains 4 per cent fat while buffalo's milk has twice as much. Milk also contains vitamin A. When butter is removed from the milk, vitamin A goes into the butter. During the process of making ghee out of butter, some loss of vitamin A is inevitable.

Milk contains also riboflavin which is an important B-vitamin required to keep the eyes and akin in a healthy condition. But this vitamin is destroyed when exposed to sunlight, To avoid this milk should not be exposed to sunlight. When milk curdles, the B-vitamins are retained in the way which is very nutritive.

Milk contains very little vitamin C which is also lost when milk is boiled. Infants who depend on milk alone also need fruit juices to ensure adequate intake of vitamin C.

Milk also contains calcium in adequate proportion. Since calcium is essential for the growth of bones,growing children should especially be given milk daily. Milk,however, is a very poor source of iron.

Milk from which fat is removed is called skimmed milk, and the powder made by removing water from this milk is called skimmed milk powder. As fat is absent in the powder, it does not contain vitamin A. Skimmed milk powder is good for persons suffering fron liver diseases. The powder contains protein to the extent of about 35 per cent and thus it is good for children suffering from protein malnutrition.

READERS' FORUM :

ILLEGAL CIVIC TAX

Sir

Several articles have appeared in the local press about the maladministration of the Mysore City Municipality. Inspite of protests by the ratepayers, the present authorities of the Municipality have been insisting the collection of interest illegally from the very many poor ratepayers and I guess they have already collected more than Rs. 40,000 by this time.

The time has now come whereby the ratepayers of Mysore have to warn the Municipality to cease levying and collection of the illegal interest on Mohatarfa taxes. Not only this; the ratepayers must refuse to pay the illegal interest as demanded by the Municipal Revenue Inspectors and Bill Collectors.

In a Court of law, their threats will not stand. There is no provision in the main Act which empowers the officers to levy and/or collect any interest on the Municipal taxes. If any learnsd lawyer were to ask the Municipal Commissioner to point out the relevent Section of the Municipalities Act. 1964, I am afraid, he will be unable to do so. Such a situation should be avoided. But the Revenue Officer is likely to point out the impugned Rule No. 18 of the Mysore Municipal Texation Rules 1965. This Rule No. 18 is a dead corpse and it should be duly buried. The officers of the Mysore Municipality cannot take cover behind the dead Rule No. 18 and demand payment of illegal interest on the Mohatarfa taxes.

'Karnataka' Born

Colourful Procession In City

Mysore, Nov. 1

The historic city of Mysore, which had given its name to the State over hundreds of years, awoke this morning with the booming of 21 guns heralding the dawn of "Karnataka".

The historic day, marking the renaming of the State as "Karnataka" fulfilling the long-cherished aspirations of the Kannadigas, began with rejoicing and colourful flag-hoisting and procession.

A special pooja was held early in the morning to Goddess Chamundeswari in the temple on the hill. A contingent of 30 boys, after the special pooja, carried the sacred fire from the temple to the Town Hall, the venue of the colourful flag-hoisting ceremony.

At the Town Hall maidan, Divisional Commissioner R. Sampathkumaran hoisted the national flag. Addressing a huge gathering, Sri Sampathkumaran called upon Kannadigas to strive hard for the prosperity of the State. By mere naming the State as "Karnataka", the task had not been completed. On this historic day people had to rededicate themselves to stand in unity and work with devotion for the State's progress, he said.

PROCESSION

After the flag-hoisting, a colourful procession was taken out from the Town Hall through the Chamaraja Circle, K. R. Circle, Sayaji Rao Road, Irwin Road and back to Town Hall.

A big idol of Nandi, a replica of the stone-cut nandi on the Chamundi Hill, and the Karnataka Jyothi headed the procession which included reserve police, mounted police, band sets, home guards, N.C.C., sevadal boy scouts, girl guides and school children in uniforms.

Prominent citizens including officials walked in front of the decorated elephant which carried a big map of Karnataka on its back. Large number of people witnessed the procession which resembled a mini-Dasara procession.

In the evening there will be a public meeting and cultural programmes in the Town Hall under the auspices of the Municipality and at Crawford Hall under the auspices of the Karnataka Rajyotsava Kendra Samithi.

Significance Of Deepavali

Mysore, Nov. 1

Though Deepavali is celebrated throughout the country with great pomp and eclat, very few of us know the real significance of the festival. It is a day of remembrance of the worship of the cow held sacred by the Hindus, of honouring the Daitya King Bali for his unbounded liberality, of the worship of Yama andof Lakshmi theGoddess of wealth and oppulence, said Asthana Vidwan Hanagal Yagnegswara Sastry addressing the Sarva Bhasha Saraswathi Sangha recently.

Unfortunately, he added Deepavali has degenerated into a spree for spending lavishly on crackers and fire works, resulting in colossal waste.

Prof. M. V. Jambunathan, Sangha President, welcomed the gathering. Sri S. V. Dasappa proposed a vote of thanks.

Due Place For Kannada Demanded

Mysore, Nov. 2

An unequivocal demand that Kannada should become the State language was made by speakers at the Karnataka Rajyotsava celebrations at Crawford Hall yesterday.

Well-known novelist Ta.Ra.Subba Rao said the delay in naming the State as Karnataka was because of narrow provincial outlook of the Kannadigas themselves. This parochial feeling should be given up at least now and all Kannadigas should feel that they belonged to one Karnataka.

The task had not been completed with mere naming of the State as Karnataka. Kannada had to become the official language within the next one or two months. If the administrators failed to take steps in this direction, people should be prepared to launch an agitation, he said.

Prof. K. Venkataramappa said that in the midst of happiness the interests of the Kannadigas who were in other States should not be forgotten. Kannada areas like Adavani, Alur, Rayadurga. Yemmigooru, Madakashira, Sholapur, Talawadi and Kasaragod still remained outsideKarnataka. Kannada had not been given its due place yet and flimsy reasons were put forth for making it the official language, he said.

Dr. Thipperudraswamy was glad that Kannadigas had woken up at least now. They should now demand official status for Kannada which was long due, he said.

Sri Khadri Shamanna accused the administrators of lack of interest and sincerity of approach in making Kannada as the State language. He blamed thebureaucracy forcoming in the way of implementing Kannada as the official language.

Sri Shamanna called for a social and economic revolution to make all people in Karnataka feel equal.

Vice-Chancellor D. Javare Gowda, in his presidential remarks, joined the speakers in demanding due place for Kannada.

Earlier, Sri T. V. Srinivasa Rao welcomed the gathering. Sri D. Jayadevaraje Urs proposed a vote of thanks. There was a colourful fire-works display and cultural programmes later.

Bahuguna To Be UP CM

Union Minister for Communications H. N. Bahuguna will succeed Sri Kamalapati Tripathi as leader of the Uttar Pradesh Legislature Congress Party next week. Sri Tripathi will join the Union Cabinet.

Ex-Ruler Hails Karnataka

Former Maharaja Jayachamaraja Wadiyar lit a 'Nanda Deepa'in the Virupaksha Temple at Hampi yesterday and unveiled a commemorative plaque with the inscription "Karnataka" symbolising the renaming of the State.

Speaking on the occasion, he referred to the efforts of the Vijayanagar rulers and said it was indeed apt that the State was being renamed as Karnataka in the sacred temples of Bhuvaneswari and Vidyaranya.

He recalled that the present enlarged State of Kannada-speaking people had taken shape when he was the Governor of Mysore.

FOCUS ON CHOLERA

From time immemorial, man has been falling victim to cholera. This created an urge to find out why and how was it caused and what was the cure.

Cholera is an acute infection of the intestine caused by a delicate bacteria, medically known as Vibrio cholerae. A new type of bacteria called Eltor vibrio was isolated in 1961. It is now called Vibrio cholerae, biotype eltor. Of the two types of cholera vibrio, Eltor, is more resistant to environmental factors and survives longer.

Cholera has no host other than man and is quickly transmitted mainly through water and food, to persons with poor personal hygiene in areas where sanitation is deficient.

The incubation period is short: less than one day to five days. The disease is characterised by profuse painless diarrhoea and vomiting causing dehydration and acidosis. Majority of cases are asymptomatic and have mild diarrohea indistinguishable, without laboratory help, from other diarrhoeas. In newly infected areas, adults of both sexes are usually affected. In endemic situations it mainly affects children.

Asia, particularly deltas of Ganges and Brahmaputra rivers, was mainly the homeland of cholera. But in the 19th century it reached Europe for the first time and caused six large epidemics. After the sixth, it again retreated to Asia. In 1961, Eltor vibrio moved out of its endemic sites, probably because of population movements in Asia and across the Pacific Ocean, to areas which had been free from cholera for many years and had few public health workers with experience in the diagnosis, treatment and control of the disease.

Eltor vibrio reached India in 1964 and almost replaced the classical Vibrio cholerae. The westward march continued until 1966 and after a temporary lull in 1967 68, the disease became widespread in some Mediterranean and neighbouring countries. In 1970 it invaded West Africa, a territory which had always remained free from it apart from an outbreak in 1868 and another poorly recorded incident in 1893.

Since the change-over from classical to Eltor biotype, India has not had a major epidemic of cholera except for an outbreak among Bangladesh refugees in 1971. The number of reported cases in India has steadily declained, although cholera has appeared in areas previously unaffected.

During the last decade, an unprecedented number of research programmes, many of them supported by the World Health Organisation have proved that the presently available cholera vaccine can only give partial protection for about 3-5 months, depending on the quality of the vaccine and several environmental factors. Studies have shown that exoentrotoxin liberated by Vibrio cholerae in the intestines causes cholera diarrhoea. This finding has helped in determining the type of rehydration fluid to be used for saving lives.

Treatment of cholera, which seeks replacement of water, salts and alkali supported by antibiotic therapy has been perfected to such an extent that death of the patient is a rare phenomenon provided immediate treatment is given. The sensitive procedures for laboratory diagnosis of chelora cases have been developed, but quick detection of carriers is still difficult.

World Health Organisation jointly with other international organisations and donor governments, has provided wherever needed, technical guidance and supplies of rehydration fluid, antibiotics, vaccines, diagnostic media, sera and disinfectants.

Research programmes have been launched to develop better vaccines, and to evaluate simple and inexpensive sanitary measures as means of cholera control.

Sumitra's Charge On Kittur's PA

Sri Raghunath Rao Mandloi, MLA, who played the key role in locating Sumitra Desai, whose disappearance from Bangalore five months ago led to the resignation of Minister of State for Home R. D. Kittur, told newsmen at Indore yesterday that Sumitra Desai had left Bangalore on being warned by an old lady at the Sai Baba Ashram that "her life was in danger and she should leave immediately".

According to Sri Mandloi, Smt. Desai had gone to meet Sri Kittur with a reference from the Minister's brother-in-law, who had told her in Goa she could get help from Sri Kittur in solving "her problems", mainly relating to large-scale smuggling in her hometown of Bulsar.

As the Minister was away at Delhi, she stayed at his residence for a day and met him on his return. She was dissatisfied with the talks. The Minister on the other hand asked the CID to keep a watch on her.

While the Personal Assistant of Sri Kittur was escorting her to Asha Niketan, an institute for mentally retarded children, the PA allegedly misbehaved with her and asked her why she had gone to meet Sri Kittur.

Sri Mandloi said, "Miss Desai faced the PA boldly and told him she would shout and call people if he did not stop harassing her".

READERS' FORUM :

Interest On Civic Cess Illegal

Sir,

It has been brought to the notice of the general public and the ratepayers of Mysore about the illegal collection of 6 per cent interest on the municipal taxes without the authority of law. The Mysore City Municipality has further expanded its action in collecting interest from the ratepayers on the following three items which are outside the purview of the Mysore municipal administration :

1. Education Cess
2. Health Cess.
3. Library Cess.

The revenue derived from the above three cess, will not go to the Municipal funds, but to the three different catagories separately to bodies outside.

There is no provision either in the Education CessAct or theHealth Cess Act or the Library Cess Act to levy and/or collect any interest on these cess amounts, which is collected by the Mysore City Municipality. The Mysore City Municipality is only a collecting agent for the above three cess for which it is paid a commission of 5 to 10 per cent on the entire gross collection in the Mysore municipal area, The municipclity's share of the commission comes to a very huge amount and the collection of interest on these cess is not only illegal, but is also unlawful and unauthorised.

For the year 1972-73 alone, the Mysore City Muncipality expected a commission of Rs. 50,000 as their share on the Education Cess, Health Cess and the Library Cess and one wonders, why the Mysore municipal authorities should unlawfully collect interest when they derive such a huge windfall of Rs. 50,000 as their share of commission. Indeed, it is a very big business for nothing ! The imposition of interest on these three cess is wholly unwarranted and unjustified, besides being unlawful and without authority.

It is hoped that the Divisional Commissioner, who is the appellete authority for the municipality, will immediately look into the matter of this unlawful collection of interest by the municipality and order the municipal authorities to stop such unauthorised collection and further, direct the Municipal Commissioner to refund the money already collected to the respective ratepayers without delay.

SUMITRA EPISODE : PROBE DEMANDED

Mysore, Nov. 12

Sri Jagannatha Rao Joshi, Vice-President, All India Jan Sangh, demanded on Saturday a thorough probe into the Sumitra Desai episode.

Addressing a public meeting at Town Hall maidan, he said that although Sumitra Desai had been traced at Khandwa, there were still many mysteries as to why she left Bangalore in a hurry, why Sri Kittur had resigned if he was innocent, why she was staying only with Congressmen, who was financing her tour, were the State CID and CBI so inefficient as to trace a woman who was touring all over the country and so on.

If the truth behind these riddles had to come out there must be a thorough enquiry, Sri Joshi said.

Lashing out at the Centre and its policies, he said the Congressmen in power had ignored the needs of the people, but were engaged in retaining power.

Sri Nanaji Deshmukh and Prof. Subramanyaswamy also spoke. Sri H Gangadhar welcomed and Sri Mahadeva Shetty proposed a vote of thanks.

Mysore-Bangalore As 'Autoban Highway'

Mysore, Nov. 16

Chief Minister Devaraj Urs said here this morning that he had suggested to the Centre to make the Mysore-Bangalore highway an "Autoban roadway" on the lines of roadways in European countries and construct a new highway along with the existing road.

Inaugurating the Decorative Laminates, a factory in private sector at Belwadi near Yelwal, he said a double road between Mysore and Bangalore with one-way traffic on each road would help quick movement of vehicles and industrialisation of the area.

Visualising a bright future for the industrially backward Mysore District, he said the conversion of Mysore - Bangalore rail line into broad gauke and the construction of "Autoban roadway" would help more industries to be set up here. He suggested that the Mysore-Malavalli-Bangalore road could be developed for the purpose.

Sri Urs said he had told Sri Raj Bahadur, the then Union Transport Minister, that the necessary funds for doubling the Mysore-Bangalore highway would be raised by the State Government by levy of a toll on vehicles.

Kannada Books Contain Only "Cattle Feed"

Learn English Also, Says Basavalingappa

Mysore, Nov. 20

Municipal Administration Minister B. Basavalingappa yesterday called upon the Scheduled Caste students not to blindly follow those who advocated the study of Kannada and limit their knowledge, but learn English and grow with the world.

Speaking on "New Wave" under the auspices of Dr. Ambedkar School of Thought, a forum of Scheduled Caste students of the Mysore University, he said if the youth had to gain more knowledge and stand equal with others they had to learn English. By restricting their knowledge to Kannada alone, the Scheduled Caste students would not get the freedom they wanted.

The Minister pointed out that those who fought for the country's freedom were inspired by the study of American War, French Revolution and English literature. Similarly, if the Scheduled Caste students want to think independently and gain knowledge, they had to study English.

He asked them not to be carried away by the passionate speeches of those who opposed English in the name of Kannada. After all Kannada books and newspapers contained nothing but "cattle-feed", Sri Basavalingappa said.

However, he said, he did not mean that they should not learn Kannada and be proud of it. But mere knowledge of Kannada alone would not take them anywhere, the Minister added.

Sri Basavalingappa said he was a sincere follower of Sri Ambedkar. He was only repeating what Buddha, Basavanna and Ambedkar had said about religion, Gods and Dharma in his speeches. But even then he was criticised.

He said he was not afraid of criticism. There were also some people who wanted that he should be ousted from power. There were such men even in his own party. But he was not afraid of losing power if it was necessary to champion the cause of the down-troddin, the Minister added

He asked the youth not to be blind followers of a dead tradition But become true rationalists like Dr. Ambedkar and revolt against injustice against them.

V-C Decries Attack On Kannada

Mysore, Nov. 24

Vice-Chancellor D Javare Gowda today took exception to the remarks of Municipal Administration Minister B. Basavalingappa against Kannada literature and Kannada newspapers at a function recently at Mysore.

Inaugurating a one-day seminar on "Kannada Journalism" under the auspices of the University Department of Journalism, Prof Gowda without naming the Minister said it was unfortunate that some people indulged in such talk.

Tracing the history of Kannada and Kannada literature, the Vice-Chancellor said Kannada had a rich background and history of 2,000 years. Kannada language and literature was rich enough to make any Kannadiga to be proud of his language.

Similarly, Kannada newspapers were playing a vital role as a means of communication and medium of education. They were in no way inferior to any other newspapers in the world. They could be well utilised for the implementation of socialism and removal of atheism, he said.

Those who spoke against casteism were unfortunately fanning the communal feelings and those who advocated socialism were failing to fulfil the aspirations of people in regard to Kannada, Prof. Gowda said.

The Vice Chancellor explained that those who championed the cause of Kannada had never said people should not learn other languages. They had never decried the importance of other languages. English would continue to be an important language. Perhaps it would remain as an Indian language along with other Indian languages. But what they were emphasising was due place for their mother-tongue, he said.

Earlier, Dr. Nadig Krishna Murthy, Head of the Department, welcomed the gathering. Sri Agaram Rangiah presided.

Kerala Governor Is City

Mysore, Nov. 27

The Kerala Governor arrived here today from Bangalore on his way to Kerala.

Karnataka

Development And Perspective-1

* On November 1, 1973, the State of Mysore became Karnataka. Seventeen years earlier, the Kannada speaking areas distributed among the neighbouring States, namely, Hyderabad, Bombay, Madras, Coorg and the state of Mysore merged to form an enlarged Mysore. Karnataka has a history which is over 2,000 years old.

* Karnataka, with 19 districts, has an area of 1,91,773 sq kms and a population of 2,92,99,014 (1971 census). There are 12 cities with a population of over one lakh. The Bangalore agglomeration is the biggest city, having 16 53 lakh population; it is the seventh populous city in India.

* Of the total population, barely 71.72 lakhs are in the urban areas. The total work force in the State is put at 90 lakhs. An interesting feature is that the women participation in wage earning is second highest-38 7 per cent-in India.

* The State has had the momentum of an early start in development. As a result, infrastructure facilities have developed faster than the national average. 31.5 per cent of the population are literates. It has a road length o 21.4 Kms. for every 100 Km. as against the national average of 11.75 Kms. In hospital bed strength and in banking facilities, Karnataka has an edge.

* Poverty, backwardness and regional imbalance in development are the problems Karnataka shares with the rest of India. One estimate places 45 per cent of the population below the poverty line.

* The income of the State has more than doubled in the last 17 years in terms of constant prices. From Rs. 495.17 crores in 1956-57, the income has gone upto Rs. 929.22 crores in 1971-72. The growth rate dnring the first three years of the Fourth Plan has been higher-5.53 per cent-than in the corresponding three years of the Third Plan.

* The per capita income in Karnataka is less than the national average, although it has increased from Rs.230.47 in 1956-57 to Rs. 313.78 in 1971-72.

* The contribution of agriculture to the State income is about 60 per cent, nearly 10 per cent higher than its share in the national income. Mining manufacturing, commerce, transport and communications and other services contribute the rest almost equally.

Pro, Anti Basavalingappa Demonstrations In City

Police Avert Clash Between Rival Groups

Mysore, Nov. 28

The controversy generated by Municipal Administration Minister Basavalingappa's remarks on Kannada literature took a serious turn here today as the rival groups took out demonstrations.

Tension prevailed for some time at K. R. Circle when both the processions, one supporting Sri Basavalingappa and the other against him, came near the K. R. Circle. Police had a tough time in keeping away the two groups from clashing.

While the pro-Basavalingappa group came in procession from the Old Statue Square to K.R.Circle, shouting slogans, the anti group tried to rush towards them from the Town Hall area.

Police chased the anti-group processionists and prevented a clash. One student was injured in a fight between the two groups. He was rushed to the hospital. Police made a few arrests also.

The pro-Basavalingappa procession organised by Dr. Ambedkar School of Thought with a garlanded portrait of Basavalingappa on a car started from Asokapuram. Nearly a 1,000 processionists holding placards and shouting slogans wended their way through Jhansi Lakshmibai Road, Narayana Sastry Road, Shivarampet, Sayaji Rao Road, Irwin Road and Asoka Road.

Near the Market Clock Tower, they burnt a copy of "Prajavani" before its local office.

Meanwhile, the students of Maharaja's and Yuvaraja's College came in procession holding sticks and shouting slogans against the Minister. Banumiah's College students joined them on the way.

At K. R. Circle, the police ably averted a clash and enabled the pro-Basavalingappa procession proceed towards the new Sayaji Rao Road.

The anti-Basavalingappa demonstrators gathered at K. R. Circle and burnt an effigy of Sri Basavalingappa. They later dispersed.

The pro-Basavalingappa procession passed through the New Sayaji Rao Road and later concluded at Asokapuram.

St. Philomena College students also took out a procession in protest against Sri Basavalingappa.

REPORTERS PROTEST

Mysore, Nov. 28

The reporters here have expressed their regret over the stand taken by Municipal Administration Minister B. Basavalingappa denying his remarks in Mysore on Kannada works and throwing blame on them.

In a resolution, they maintained that they had reported his speech faithfully and at no time he mentioned as "some" Kannada books. The reporters felt that such actions of the Minister in disowning the statement would bring credit to none.

Karnataka

Agriculture-2

Seven out of every 10 persons in Karnataka are engaged in farm work. The State derives 60 per cent of its income from agriculture, which is 10 per cent higher than the contribution made by this sector to the national income.

Sixtyfive per cent of the total land area or 12.36 million hectares is available for cultivation. Of this, the net sown area was 10.20 million hectares in 1969-70. The net sown area to the total land is one of the highest as compared to the national picture.

Food crops account for 72.9 per cent of the gross cropped area and non food crops are grown in 27-1 per cent. Irrigation is available to 13 30 per cent of the sown area which is very much below the national level. However, it would mean a doubling of irrigation facility which was available in 1956-57.

There has been a significant increase in agriculture production. For instance, even though the area in 1968-69 was only marginally more than that in 1956-57, the production rise was as much as 37 per cent.

The end of First Plan saw the State producing 38.04 lakh tonnes of foodgrains. By 1971-72, it exceeded 62 lakh tonnes.

The average yield per hectare is 918 kg.(cereals) and 357 kg. (pulses) as on 1970-71-a rise of about 400kg.in cereals and 86kg. in pulses in the course of a decade. The most impressive development has been in the field of sugarcane, which has grown by three-times or from 31 lakh tonnes in 1956 to 95.69 lakh tonnes in 1968-69.

However, commercial crops production has been sluggish, although cotton and oilseeds are likely to touch the current Plan targets.

The advent of hybrids has meant a massive job of inputs supply. For foundation seeds 63 seed farms spread in all the districts have been set up. Today hybrid varieties of food crops cover six lakh hectares.

Tributes Paid To Dasappa

Mysore, Dec. 6

Political life in the country had degenerated to shockingly low depths, Sri K. Hanumanthaiya, MP, said here yesterday.

Inaugurating the H. C. Dasappa Library under the auspices of the newly-formed Dasappa Institute of Public Affairs, Sri Hanumanthaiya regretted that for the sake of a Minister's post one was prepared to do anything in this country.

Praising Smt Yashodharamma Dasappa for setting an example by resigning to the Minister's post when Prohibition was scrapped, Sri Hanumanthaiya said such people who stood firm in their principles were rare to find in political life.

He admitted that his efforts to purify politics had not been fruitful yet. But, he was confident that he would succeed.

Sri Hanumanthaiya paid rich tributes to his close associate, Sri Dasappa, and announced a donation of Rs. 10000 to the institute. He also suggested setting up of a statue of Dasappa in the city.

Agriculture - 2

The consumption of fertilisers has increased by leaps and bounds. From 7.9 kg. per hectare in 1968 69, its application has soared to 35.7 kg this year. The next Plan expects a demand of 140 kg. per hectare. For better soil and fertiliser management, each district has been provided with a soil testing laboratory.

The improvements in agriculture is in no small measure due to the excellent work of agricultural research and extension work. Set up in 1964, the University of Agricultural Sciences at Bangalore has six constituent colleges and one agricultural engineering institute. It has 34 research stations. There are ten Agricultural Schools for training farmers and three more are to be added this year. Six farmers training centres train farmers, both men and women in improved farm practices. Raising of horticultural crops is in-built into Karnataka's agriculture production strategy. From just 3.5 per cent of the total cultivated area horticulture occupied in 1960, it is likely to double and occupy 6 34 lakh hectares by the end of 1974. In the recent years grape cultivation has added a new dimension to the State's horticultural crops. It has one-third of the country's grape growing area and occupies second place in grape output. The area under it is likely to go up from the present level of 4,656 hectares. The State's Fifth Plan envisages an additional area of 1.33 lakh hectares to be brought under horticultural crops.

Fifth Plan

In the next Plan, agricultural production programmes have been accorded top priority. A sum of Rs 77 crores is sought to be invested in this sector. The main aim is to take the food crops production level to 74.59 lakh tonnes, cotton to 12 lakh bales, oliseeds to12.5 tonnes and suagrcane to11.7 lakh tonnes.

To achieve this, the area irrigated will go up from 3.72 lakh hectares to 8.27 lakh hectares, multiple cropping will be extended from the present five lakh hectares to 7.5 lakh hectares.

Irrigation-3

Karnataka is fortunate to be drained by eight major river systems. Of them, Krishna in the north Tungabhadra in the middle and Cauvery in the south are the prominent. Despite this nature's bounty, the area irrigated as a percentage of the net area sown is expected to be 14.1 per cent, which is much below the national average of 22 per cent.

The National Irrigation Commission has placed 54 per cent of the State's geographical spread with one-half of its population in the drought prone region. The dry region here is the second driest area in India, next only to the Thar in Rajasthan. The irrigation facility is very unevenly spread and the scope for minor irrigation in some of the districts is very limited.

Between 1901 and 1947, the total irrigation potential created in the nine districts of old Mysore was 6.88 lakh hectares. That is, 5.4 per cent of the net sown area had irrigation.

Since the First Five Year Plan 43 major and medium irrigation works have been taken up. An investment of Rs. 200 crores has helped to raise the percentage of irrigated area from 7.37 in 1956-57 to 12.43 in 1968-69 By the end of the Fourth Plan, irrigated area as a percentage of net sown area is likely to be 14.1 per cent. The utilisation of major irrigation is estimated to be 4.9 lakh hectares and medium irrigation 47,000 hectares.

Priority enjoyed by irrigation in the State's developmental effort could be gauged from the fact that the average annual expenditure rate on irrigation in the First Plan was Rs. 826 lakhs. It increased to Rs. 1963 lakhs during 1966-69. Minor irrigation claimed nearly Rs. 83 lakhs and now it is 10 times more. The Fourth Plan outlay in major and medium irrigation alone is Rs 82.9 crores.

Centre Blamed For Flare-Up

Mysore, Dec. 17

Sri M. S. Gurupadaswamy, member of the Congress (O) Working Committee, who has blamed the Centre for the present border flare-up has urged on it to give up its dilly-dallying tactics at least now and accept the Mahajan Commission report.

He said on Saturday that it was the breakdown of the statesmanship at the Central level that has pushed the situation to the boiling point.

Sri Gurupadaswamy also condemned the "wave of naked terror and brutality" unleashed by the Maharashtra Government with the support of Shiv Sena.

Sri G. V. Anjanappa, former KPCC Secretary, said that it was unfortunate that the State was in turmoil owing to the continued indecision of the Centre over the border issue. The Government of Sri Devaraj Urs had failed to meet the crisis of the situation.

He described the en-masse resignation of the State Ministers over the Basavalingappa episode as "meaningless and a preplanned strategy of Sri Urs to include his favourites and henchmen in the cabinet". People in the State were utterly disillusioned with KPCC Chief K. H. Ranganath joining the Urs Ministry. It was unfortunate that Sri Ranganath had succumbed to pressures rather than retaining public image, he said.

The Yuvajana's College teachers have strongly condemned the violent attacks on Kannadigas and urged the Maharashtra Government to give suitable compensation.

FINAL CABINET LIST — TOMORROW

Bangalore, Dec. 17
